

Hand-held laser speed gun without Camera
A portable, operable hand-held speed device that can accurately take the speed value and ensure the uniqueness and effectiveness of the resulting data

FEATURE:

- Convenient and quick
- Highly accurate
- Highly waterproof
- Durable

Specification

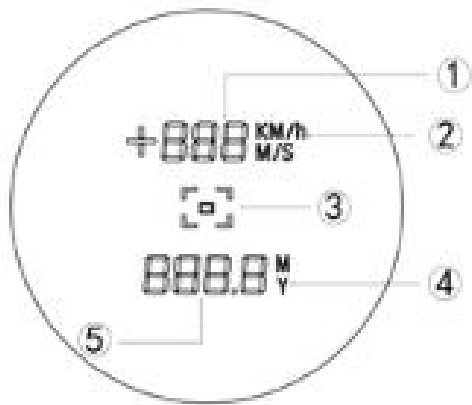

Material Quality:	Aluminium alloy	
Maximum Range:	1200m	
Ranging Scope:	0 km/h to 320 km/h(0 mile/h to 200 mile/h)	
Speed Measurement Accuracy:	± 2 km/h(± 1 mile/h)	
Ranging Accuracy:	±30 cm (± 12 inch)	
Speed Display Resolution:	1km/h (1 mile/h)	
Distance Display Resolution:	0.1 m (0.1 feet)	
Batteries:	7.4 v DC, Lithium polymer chargeable batteries, overcharge protection, up to 5-8 hrs of operation	
Laser Wave Length:	905 nm	
Speed Measurement Time:	0.33-0.66s	
protection class:	NEMA 4/IP 55	
Temperature Ranger:	-20° C to +60°C (-4°F to 140°F)	
Human Eyes Safety:	Class 1;FDA CFR 21	
	Europe IEC 60825-1;GB 72471-2001	
Laser Beam Divergence:	2.5 mrd	
WIFI printing:	√	

OPERATION

LCD Display

- 1.Speed display data
- 2.Speed Unit
- 3.Aiming point
- 4.Distance unit
- 5.Distance display data
