

When measuring concentrations of specific compounds, nothing quite beats the colorimetric tube for simplicity, flexibility and specificity. Beyond that, Uniphos offers detectorstrips, smoke tubes, dissolved ion tubes, carbon tubes and dosimetertubes.

Uniphos precision air sampling pump

The Uniphos air sampling pump is a one stroke pump with built-in tip breaker and shard reservoir. This ensures safe and clean working and guarantees a reliable analysis.

Features

- ◇ One-stroke handpump
- ◇ Light, rugged and handy
- ◇ Reproduceable stroke
- ◇ Low maintenance
- ◇ 50 or 100cc pump volume
- ◇ 5 year warranty

Available for i.a.:

NH₃, H₂S, SO₂, Cl₂, PH₃, HCl, HCN, CO, CO₂, O₂, C₆H₆, alcohols, amines, mercaptans and many other gases and vapours

Available also:

- ◇ Gasdetectionstrips
- ◇ Carbon tubes
- ◇ Dissolved ion detectortubes
- ◇ Smoke tubes

The pump has only 5 moving parts to ensure accuracy and low maintenance cost. Leaks are virtually impossible, so the sampling volume is taken with great precision. Any leaks are quickly determined with the built-in leak test. You get a 5 year warranty with the pump.

Uniphos offers tubes for most compounds, often in multiple measurement ranges. These tubes also offer great value for money as the price is unrivalled by our competitors.

Most tubes have a shelf life of up to 2 years. Measurements are often possible at temperatures as low as 0° C.

Exchanging tubes and sampling pump

Results of research by independent institutes suggest that exchanging tubes and pumps cause no significant accuracy problems within the industrial standards. Uniphos tubes and pumps are compatible with RAE Systems LP-1200 / Sensidyne™ / Gastec™ GV/100, 800 and Kitagawa™ AP-20 pumps. The tubes of these manufacturers are compatible with the Uniphos sampling pump as well.

Uniphos Smoke Tubes

Smoke tubes are sealed glass tubes filled with a pungent gas producing chemical compound loaded on an inert support material. After cutting both the ends of the tube and passing air by using a specified pump or squeezing a rubber bulb attached to one end of the tube.

Uniphos Smoke Generation Tubes are used for tracking low

velocity air movements. They are an ideal tool for respiratory fit testing specified by OSHA, for checking air flow direction in mines, testing the performance of fume hoods, exhaust discharge, dryers, stacks etc.

Uniphos Dissolved Ion Detector Tubes

Uniphos Dissolved Ion Detector Tubes provide a rapid, fully quantitative analysis of the concentration of sulfide and chloride ions in water.

Using a pump is not necessary as the inherent capillary action of water through the support material allows the sample to be led over the reactive.

Gas	Range (ppm)
Sulfide ion	0.5 - 20
	2 - 300
	1 - 100
Chloride ion	5 - 200
	10 - 2000

Uniphos dosimeter buisjes

Gas	Range (ppm)
Phosphine	$(1-200) \times 10^3$
	$(1-200) \times 10^2$
Ammonia	25 - 500
Carbon Dioxide	$(5 - 120) \times 10^3$
Oxygen	$(1 - 100) \times 150$

Uniphos Gas Detector Strips

For a simple and cost effective detection of gases at their TLV, Uniphos developed these gas detector strips. It's just a little paper strip, impregnated with sensing chemicals to detect gases like phosphine, hydrogen cyanide, hydrogen sulfide etc.

Gas	Range (ppm)
Phosphine	0.3 - 10
Hydrogen sulfide	1 - 20
Hydrogen cyanide	1 - 20
Mercaptan	0.5 - 10
Arsine	0.05 - 3

Uniphos Charcoal Tubes

These sealed glass tubes are filled with two columns of accurately weighed, high purity coconut shell charcoal. Non polar solvent vapors and gases running through the tube are adsorbed.

The tubes fit into a variety of holders and can be used along with a number of specified air sampling pumps and flow meters.

Thus, charcoal tubes are an industry standard of measuring exposure to organic vapors and aerosols. Using Uniphos charcoal tubes provide for a NIOSH approved method for air sampling.

Type	Size (mm) (Outer diameter x length)	Sorbent weight A/B (mg)
Standard	6 x 70	50/100
Large	8 x 110	200/400
Jumbo	10 x 110	200/800
Open end - Standaard	6 x 70	50/100
Open end - Large	8 x 110	200/400
Open end - Jumbo	10 x 110	200/800

***Note:**

5 = 5 measurements

H = Humidity sensitive

Red marked boxes = Actual printed scale on tube (with tubes that have an extended range).

Air Sampling Pumps for Tubes

Air Sampling Pump ASP-40 Kit <i>(incl. carrying bag, spare connectors, maintenance grease)</i>	UNI-CF000162	100cc
Plastic Air Sampling Pump ASP-11p Kit <i>(incl. spare connectors, maintenance grease)</i>	UNI-CF000161	100cc
Air Sampling Pump ASP-40 <i>(Rental per week)</i>	UNI-CF000162	100cc

Optional Accessories		
Dot Matrix Printer for printing reports		
Bluetooth Dot Matrix Printer		
UNIPHOS Fumi Software for data downloading to computer		
Indestructible Transport/Presentation Case	UNI-200140024	30,5 x 23 x 13,2 cm
Gas Detection Shoulder Bag	UNI-CF0001610	
Extension Hose for Tubes	UNI-010-3009-015	5 meter
Extension Hose for Tubes	UNI-010-3009-035	11 meter
Extension Hose for Tubes		~
Container Fumigation Probe		40 cm
Container Fumigation Probe		100 cm
Tedlar Gas Bag	FAC-FD02-01	1 liter
Tip Cutter Reservoir	UNI-010-203-000	
Gas Cylinder		Liters differs
Demand Flow Regulator		
UNIPHOS Product Training		~

Breath Alcohol Testers		
Breath Alcohol Measuring Kit (10pcs)	UNI-CF000166	0 - 0,2 BAC
Breath Alcohol Measuring Kit (10pcs)	UNI-CF000165	0 - 0,5 BAC
Breath Alcohol Measuring Kit (10pcs)	UNI-CF000167	0 - 0,8 BAC

Air Flow Smoke Tubes		
Air Flow Smoke Tubes (10 pcs)	UNI-CF000732	---
Air Flow Bulb	UNI-CF088888	---

Charcoal Adsorption Tubes for organic gases			
Sealed Charcoal Tubes	(50 pcs)	UNI-CF000162	STANDARD 50/100mg
Sealed Charcoal Tubes	(50 pcs)	UNI-CF000163	LARGE 200/400mg
Sealed Charcoal Tubes	(50 pcs)	UNI-CF000164	JUMBO 200/800mg
Open End Charcoal Tubes	(50 pcs)	UNI-CF000114	STANDARD 50/100mg
Open End Charcoal Tubes	(50 pcs)	UNI-CF000116	LARGE 200/400mg
Open End Charcoal Tubes	(50 pcs)	UNI-CF000118	JUMBO 200/800mg

Dosimeter Tubes for TWA measurements			
Dosimeter Ammonia	(10 pcs)	LAM-2	25 - 500 ppm/hr
Dosimeter Carbon Dioxide	(10 pcs)	LCD-2	(5-120) x 10 ³ ppm/hr
Dosimeter Oxygen	(10 pcs)	LOX-1	(1-100) x 150 ppm/hr
Dosimeter Phosphine - LPG 1	(10 pcs)	LPG-1	(1-200) x 10 ³ ppm/hr
Dosimeter Phosphine - LPG 2	(10 pcs)	LPG-2	(1-200) x 10 ² ppm/hr

Dissolved Ion Detector Tubes in liquid			
Dissolved Ion Detector: SULPHIDE ION	(10 pcs)	DSU - 2M	0.5 - 20 ppm
Dissolved Ion Detector: SULPHIDE ION	(10 pcs)	DSU - 3	1 - 100 ppm
Dissolved Ion Detector: SULPHIDE ION	(10 pcs)	DSU - 4M	2 - 300 ppm
Dissolved Ion Detector: CHLORIDE ION	(10 pcs)	DCL - 4L	5 - 200 ppm
Dissolved Ion Detector: CHLORIDE ION	(10 pcs)	DCL -5M	10 - 2000 ppm
